**THE DETAILS:**

Donated phones will be either recycled or refurbished and sold by Verizon Wireless. The shelters, which receive the donations, disseminate the phones to victims, including those who need "Emergency phones" to dial 911 or those in programs who need to stay connected with case managers, family, and employers. Phones should be wiped clean of personal data by manually deleting phone numbers of contacts before donating. More information regarding HopeLine by Verizon Wireless may be found at:

**PREVIEW:** At our Annual Meeting on May 12, 2010, we will seek small unused toiletries and cosmetics for distribution in women's homeless shelters.
