During the last few weeks of October, the Mock Trial Executive Committee surveyed coaches, advisors, coordinators, and judges about how we should handle this year’s competition in light of the COVID-19 pandemic. First, thank you all that participated. We had a large percentage of you respond, providing us a wealth of information. We are currently reviewing those results. Although we suspect that parts of the state may be virtual, no decision has been made at this time. We hope to issue a decision in the next few weeks. Although the problem refers to a possible virtual format, we did not want teams to think that a decision had been made Commonwealth wide.
