Honor the life and legacy of Ruth Bader Ginsburg during Women’s History Month

A giant in American history, Ruth Bader Ginsburg was a trailblazer for race and gender equality, a civil rights hero, and a visionary of the American legal landscape and its intersection with American society. RBG’s story is one of bravery, tenacity, and resilience. And it will be told in the new book, *Justice, Justice Thou Shalt Pursue*, authored by Justice Ginsburg and Professor Amanda Tyler of Berkeley Law, who clerked for the Justice at the US Supreme Court.

Continue the conversation: RBG’s lifelong fight for gender equality

During a visit to Berkeley Law in the fall of 2019, Justice Ginsburg sat down for a conversation with Professor Tyler and shared details, many not widely known, of her life and career. Professor Tyler relates the conversations in this new book with Nancy Conrad and you in a presentation you won’t want to miss.

Moderated by Nancy Conrad, Professor Tyler joins members of our bench and bar to commemorate Women’s History Month with a look into the life and work of one of history’s most remarkable women.

A GLIMPSE INTO RBG’S PERSONAL LIFE:

- Family, marriage, and early challenges breaking into a male-dominated profession

RBG BEFORE THE BENCH:

- As advocate for gender equality
- The landmark cases that highlight her legacy

THE NOTORIOUS RBG, SUPREME COURT JUSTICE:

- Her time as a justice
- Notable briefs, opinions, and last speeches

Developed by the PBA Diversity Team and Women in the Profession Commission, this program is part of their Diversity and Inclusion Best Practices Series. Recognizing that an environment that supports diversity and inclusion fosters greater creativity, respect and innovation, the Diversity Team has developed this series of short programs to provide a framework for implementing change and for translating insights into actions that will help you achieve and maintain a more inclusive environment within your organization. Please visit our website for dates and topics of other programs in this Series.
